Health Data in the Information Age Institute of Medicine 1994-01-01 Regional health care databases are being established around the country with the goal of providing timely and useful information to policymakers, physicians, and patients. But their emergence is raising important and sometimes controversial questions about the collection, quality, and appropriate use of health care data. Based on experience with databases now in operation and in development, Health Data in the Information Age provides a clear set of guidelines and principles for exploiting the potential benefits of aggregated health data--without jeopardizing confidentiality. A panel of experts identifies characteristics of emerging health database organizations (HDOs). The committee explores how HDOs can maintain the quality of their data, what policies and practices they should adopt, how they can prepare for linkages with computer-based patient records, and how diverse groups from researchers to health care administrators might use aggregated data. Health Data in the Information Age offers frank analysis and guidelines that will be invaluable to anyone interested in the operation of health care databases.

Discipline and Punish Michel Foucault 2019-11-14 'Imaginative, illuminating and innovative' The New York Times Book Review The grisly spectacle of public executions and torture of centuries ago has been replaced by the penal system in western society - but has anything really changed? In his revolutionary work on control and power relations in our public institutions, Michel Foucault argues that the development of prisons, police organizations and legal hierarchies has merely changed the focus of domination from our bodies to our souls. Even schools, factories, barracks and hospitals, in which an individual's time is controlled hour by hour, are part of a disciplinary society. 'Foucault's genius is called forth into the eloquent clarity of his passions ... his best book' Washington Post

Secrets, Spies and 7/7 Tom Secker 2014-09-14 On July 7th 2005 London suffered the worst terrorist attack in its history. Despite one of the largest police investigations ever to take place in Britain, to date not a single person has been found guilty for the atrocity that killed over 50 people. Using unsealed court documents and declassified intelligence agency files Secrets, Spies and 7/7 takes you on a journey through the labyrinth of disinformation about the bombings. Drawing on over 7 years of research, Tom Secker shows how the official version of events, which blamed 4 British Muslim men, is a mess of contradictions, errors and fantasies. This unique investigation also explores the 'War on Terror' context in which the attacks took place and shows how an alternative look at the evidence suggests some very different culprits to those blamed by the official story.

secrets never be revealed Abi krishna 2020-09-07 The great poet Subramaniya Bharatiyar said in his women's liberation poem, women were given many freedoms in this 21st century. But some freedoms are not given. That is the true fact. The reason for this may be the angle some men see about women. But many men are aware of the power of women. Because Bhartiyar who wrote this poem is also a man. Those who are aware of the power of women like that. Those who think women are degrading. This story is about how their lives change as they think. When you finish reading this book in its entirety, I hope your thinking about women will change for the better. And this book contains may secrets try to find them before reveals.

PISA Take the Test Sample Questions from OECD's PISA Assessments OECD 2009-02-02 This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.

Pattern Recognition William Gibson 2004-06-24 It's only called paranoia if you can't prove it. Cayce is in London to work. Her pathological sensitivity to brands makes her the perfect divining rod for an ad agency that wants to east a new logo. But when she is co-opted into the search for the creator of a strangely addictive on-line film, Cayce wonders if she has done the right - or indeed, safe - thing. And that's before violence, Japanese computer crazies and Russian Mafia men are in the mix. But she wants to discover the source of the film too, and the truth of her father's disappearance in New York, two years ago. And from the way people are trying to stop her, it looks like she's getting close . . .

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Who's Afraid of the Big Bad Dragon? Yong Zhao 2014-09-15 The secrets behind China's extraordinary educational system – good, bad, and ugly Chinese students' consistently stunning performance on the international PISA exams— where they outscore students of all other nations in math, reading, and science—have positioned China as a world education leader. American educators and pundits have declared this a "Sputnik Moment," saying that we must learn from China's education system in order to maintain our status as an education leader and global superpower. Indeed, many of the reforms taking hold in United States schools, such as a greater emphasis on standardized testing and the increasing importance of core subjects like reading and math, echo the Chinese system. We're following in China's footsteps—but is this the direction we should take? Who's Afraid of the Big Bad Dragon? by award-winning writer Yong Zhao offers an entertaining, provocative insider's account of the Chinese school system, revealing the secrets that make it both "the best and worst" in the world. Born and raised in China's Sichuan province and a teacher in China for many years, Zhao has a unique perspective on Chinese culture and education. He explains in vivid detail how China turns out the world's highest-achieving students in reading, math, and science—yet by all accounts Chinese educators, parents, and political leaders hate the system and long to send their kids to western schools. Filled with fascinating stories and compelling data, Who's Afraid of the Big Bad Dragon? offers a nuanced and sobering tour of education in China. Learn how China is able to turn out the world's highest achieving students in math, science, and reading Discover why, despite these amazing test scores, Chinese parents, teachers, and political leaders are desperate to leave behind their educational system Discover how current reforms in the U.S. parallel the classic Chinese system, and how this could help (or hurt) our students' prospects

Blaze of Secrets Jessie Donovan 2013-09-03 Kiarra Melini overhears the dangerous secrets of her blood and decides that if Feiru elemental magic is to survive, she needs to die. Before she can finish the deed, a strange yet determined man shows up in her cell, throws her over his shoulder, and carries her right out of the prison for elemental magic users. After fifteen years in prison, Kiarra has no one to turn to and is forced to work with the strange man who rescued/kidnapped her from prison. But soon the prison retrieval squad is on her tail and she must find a way to reawaken her dormant elemental magic or risk losing not only her newfound freedom, but also the man who reawakens her desires and captures her heart. Jaxton Ward finally rescues his older brother from prison, but instead of helping with his brother's recovery, he's ordered to train Kiarra--a stubborn elemental fire user who claims her magic is gone. But just as Kiarra starts trusting him with her secrets, the prison enforcers catch up with them. Now Jaxton must find a way to keep his family safe while also protecting the only woman able to ignite both his temper and his passion.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

The Mueller Report Robert S. Mueller 2019-04-26 This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

Secrets of a Devon Wood JO. BROWN 2020-10-08 "Things of such magnitude deserve respect and understanding. They deserve to be remembered..." Artist and illustrator Jo Brown started keeping her nature diary in a bid to document the small wonders of the wood behind her home in Devon. This book is an exact replica of her original black Moleskin journal, a rich illustrated memory of Jo's discoveries in the order in which she found them. In enchanting, minute detail she zooms in on a bog beacon mushroom, a buff-tailed bumble-bee, or a native bluebell. And she notes facts about their physiology and life history. Secrets of a Devon Wood is a treat for the senses, a hymn to the intricate beauty of the natural world and a quiet call to arms for all of us to acknowledge and preserve it. It is a book that will stay with you long after you finally put it down.
