Citizenship on the Edge Nancy J. Hirschmann 2022-01-04
What does it mean to claim, two decades into the twenty-first century, that citizenship is on the edge? The questions that animate this volume focus attention on the relationships between liberal conceptions of citizenship and democracy on one hand, and sex, race, and gender on the other. Who

"counts" as a citizen in today's world, and what are the mechanisms through which the rights, benefits, and protections of liberal citizenship are differentially bestowed upon diverse groups? What are the relationships between global economic processes and political and legal empowerment? What forms of violence emerge in order to defend and define

these rights, benefits, and protections, and how do these forms of violence reflect long histories? How might we recognize and account for the various avenues through which people attempt to make themselves as political subjects? Citizenship on the Edge approaches these questions from multiple disciplines, including Africana Studies, anthropology, disability studies, film studies, gender studies, history, law, political science, and sociology. Contributors explore the ways in which compounding social inequalities redound to the conditions and expressions of citizenship in the U.S. and throughout the world. They give a sense of the breathtaking range of the ways that citizenship is controlled, repressed, undercut, and denied at the same time as they outline people's attempts to claim citizenship in ways that are meaningful to them. From university speech policies, to labor and immigration policies, to a rethinking of the security

theatre, to women's empowerment in the family and economy and a rethinking of marriage and the family, we see slivers of possibility for a more inclusive and less hostile world, in which citizenship is no longer so in doubt, so on the edge, for so many. As a whole, the volume argues that citizenship cannot be conceptualized as a transcendent good but must instead always be contextualized within specific places and times, and in relation to dynamic struggle. Contributors: Erez Aloni, Ange-Marie Hancock Alfaro, Nancy J. Hirschmann, Samantha Majic, Valentine M. Moghadam, Michael Rembis, Tracy Robinson, Ellen Samuels, Kimberly Theidon, Deborah A. Thomas.

Human Trafficking Noël Bridget Busch-Armendariz
2017-03-31 This practical, interdisciplinary text draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of

the meaning and scope of human trafficking. Throughout the book, the authors address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

Child Trafficking in the EU

Pete Fussey 2017-03-27

Drawing on empirical research conducted with police in the UK and Romania, *Child Trafficking in the EU* explores the way in which the 'who' and 'how' we police and protect as trafficker and trafficked is related to Western notions of

innocence, guilt, childhood, and of the status of 'deserving' victim. This book progresses a new theoretical space by linking its analysis to sociologies of mobility, marginalisation and the pluralised rendering of criminalised and victimised 'others'. This book explores core contextual themes surrounding the commission, response to and origins of child trafficking, and presents empirical research into the investigation of child trafficking within the EU, situating the authors' findings against broader social, cultural, political, policy and judicial contexts. The authors conclude with a synthetisation of the key themes and arguments to situate pan-EU child trafficking within political, criminal justice, organisational, cultural, and social contexts, and consider the degree to which such criminality can be adequately addressed by current and emerging approaches given such enduring and persistent

structural issues. This book will be of interest to scholars and students within the fields of criminology, sociology, political science and law, as well as a key resource for practitioners and activists.

Art Therapy Treatment with Sex Trafficking Survivors

Mary K. Kometiani 2019-10-16

This groundbreaking book introduces and researches art therapy as a creative and effective treatment for the sensitive and pertinent issue of human sex trafficking. Rich empirical examples and best practices are provided through the contributors' expertise and knowledge in the field of art therapy. Art therapy facilitates emotional catharsis, a personal sense of worth and empowerment through making choices; supports connection to others and the inner self; resolves trauma, grief, and shame; and provides hope for the future and recovery. This book explores art therapy interventions and outcomes through detailed case studies for sex trafficking survivors in the United States, India, and

Nepal, and includes international recommendations for survivor treatment and recovery, as well as staff support programming. Professional helpers and learners from mental health, social services, medical care, and those who work with trafficking and sexual abuse survivors will benefit from this guide.

Child Migration and Human Rights in a Global Age

Jacqueline Bhabha 2016-05-17

Why, despite massive public concern, is child trafficking on the rise? Why are unaccompanied migrant children living on the streets and routinely threatened with deportation to their countries of origin? Why do so many young refugees of war-ravaged and failed states end up warehoused in camps, victimized by the sex trade, or enlisted as child soldiers? This book provides the first comprehensive account of the widespread but neglected global phenomenon of child migration, exploring the complex challenges facing children and adolescents who move to join their families, those who are moved to be exploited, and those who move simply to survive. Spanning several continents and drawing on the stories of young migrants, *Child Migration and Human Rights in a Global Age* provides a comprehensive account of the widespread and growing but neglected global

phenomenon of child migration and child trafficking. It looks at the often-insurmountable obstacles we place in the paths of adolescents fleeing war, exploitation, or destitution; the contradictory elements in our approach to international adoption; and the limited support we give to young people brutalized as child soldiers. Part history, part in-depth legal and political analysis, this powerful book challenges the prevailing wisdom that widespread protection failures are caused by our lack of awareness of the problems these children face, arguing instead that our societies have a deep-seated ambivalence to migrant children—one we need to address head-on. *Child Migration and Human Rights in a Global Age* offers a road map for doing just that, and makes a compelling and courageous case for an international ethics of children's human rights.

Combating Human

Trafficking Michael J.

Palmiotto 2014-12-01 A

centuries-old crime, human

trafficking occurs not only in undeveloped countries, but also in some surprising locations. Right here in the United States, individuals are recruited, transported, and held by unlawful means—either through deception or under threat of violence. Approaching the topic from a law enforcement perspective, *Combating Human Trafficking: A Multidisciplinary Approach* provides an unprecedented look at the investigation of this phenomenon in America. Beginning with historical, sociological, and psychological perspectives, the book discusses how authorities can best conduct an investigation of trafficking. It reviews federal agencies responsible for confronting the problem, examines relevant laws and legal trends, and discusses law enforcement awareness and training. Individual chapters written by experts in law enforcement explore a host of topics, including: Border issues between Mexico and the U.S., including the trafficking of people, drugs, and firearms

The role of the Internet in human trafficking
Child victim recruitment into sex trafficking
How sexually oriented businesses such as escort services, hostess bars, and massage parlors can be fronts for sex trafficking
The prevalence of human trafficking among street gangs
Forced labor aspects, especially with respect to illegal immigrants
How victims are chosen
Theoretical, practical, and ethical considerations in providing effective services to victims
An ideal resource for police investigators, police training, and community outreach organizations, the book is also suitable as a college text for criminal justice courses. It is hoped that the awareness created through this text will provide the knowledge and tools needed to help to end this form of modern-day slavery.

Children's Human Rights and Public Schooling in the United States
Julia Hall
2013-02-11
Promotion Text for Children's Human Rights and Public Schooling in the United

States Julia Hall The United States tends to portray itself as a human rights leader. However, human rights concerns are confronted everyday by people in this democracy, including children. The purpose of this volume is to bring attention to the fact that against the backdrop of neoliberal expansion, serious human rights violations are taking place among children everywhere, including in the US. The daily struggles among groups of school children in the US are specifically considered here, such as children who are sorted by race, homeless children, transient children, child refugees, children as targeted by human traffickers, and/or child migrant workers. As the economy continues to constrict, more and more young people find themselves struggling to grow up on these razor thin margins of survival. Given current economic arrangements, such margins are widening. The definition of “children’s human rights” as understood in this analysis is taken directly from the UN

Convention on the Rights of the Child [CRC]. Here emphasis is placed on ways in which the CRC could be used to serve more effectively the needs of the most vulnerable populations of school-age children in the US and elsewhere. Public schools could be the very place where children come to understand they have rights.

Unfortunately, many children do not get this information. Instead the protections stated in the CRC and the realities of the lives of so many children are often worlds apart. This volume sets out to be a part of changing this.

Runaway Girl Carissa Phelps 2012-07-05 “Riveting . . . A genuinely important book that casts the problem of sex trafficking in America into stunning, heartbreaking relief.” (Kirkus Reviews) A School Library Journal Best Adult Book for Teens A Joan F. Kaywell Award Finalist from the Florida Council of Teachers of English Carissa Phelps was a runner. By the time she was twelve, she had run away from

home, dropped out of school, and fled blindly into the arms of a brutal pimp. Even when she escaped him, she could not outrun the crushing inner pain of abuse, neglect, and abandonment. With little to hope for, she expected to end up in prison, or worse. But then her life was transformed through the unexpected kindness of a teacher and a counselor. Through small miracles, Carissa accomplished the unimaginable, graduating from UCLA with both a law degree and an MBA. She left the streets behind, yet found herself back, this time working to help homeless and at-risk youth discover their own paths to a better life. Like the multimillion-copy bestseller *The Glass Castle*, this memoir moves us through the power of its unflinching candor and generosity.

Sex Trafficking and Commercial Sexual Exploitation

Lara B. Gerassi, PhD, LCSW 2017-09-28 This is the first comprehensive text to critically analyze the current research and best practices for

working with children, adolescents, and adults involved in sex trafficking and commercial sexual exploitation (CSE). With a unique, research-based focus on practice, the book synthesizes the key areas related to working with victims of sex trafficking/ CSE including prevention, identification, practice techniques, and program design as well as suggested interagency, criminal justice, and legislative responses. Best practices are examined through an intersectional, trauma-informed lens that adheres to principles of cultural competency. Highlights include: Integrates a trauma informed lens in practice, program design, and interagency responses. Uses an intersectional approach to examine identity-based oppression such as race, class, sex, LGBTQ identities, age, immigrant status, and intellectual disabilities. Highlights the importance of cultural competency in practice and program design, prevention and outreach

efforts, and interagency and criminal justice system responses. Reviews the different types of sex trafficking and CSE, the physiological and psychological effects, various risk factors, and the distinct needs of survivors to encourage practitioners to tailor interventions to the specific needs of each client. Examines the role of social workers and practitioners in interagency, legislative, and criminal justice responses to sex trafficking. Takes a broad societal perspective by examining the role of macro-level risk factors facilitating sex trafficking victimization. The book analyzes the commonly reported indicators of sex trafficking/CSE, how to conduct a screening with potential victims, and direct practice techniques with various populations including evidence-based trauma treatments. Other chapters guide the reader in implementing trauma-informed programming in a variety of organizational settings,

advocating for sex trafficking and CSE survivors within the criminal justice system, and implementing effective prevention and outreach programs in schools and community organizations. Intended as a text for upper division courses on sex or human trafficking, interventions with women, trauma interventions, violence against women, or gender and crime taught in social work, psychology, counseling, and criminal justice, this book is also an ideal resource for practitioners working with victims of sex trafficking and CSE in a variety of settings including child protective services, the criminal justice system, healthcare, schools, and more.

Prostitution, Trafficking, and Traumatic Stress Melissa Farley, PhD 2012-09-10

Prostitution, Trafficking, and Traumatic Stress offers the reader an analysis of prostitution and trafficking as organized interpersonal violence. Even in academia, law, and public health,

prostitution is often misunderstood as “sex work.” The book’s 32 contributors offer clinical examples, analysis, and original research that counteract common myths about the harmlessness of prostitution. Prostitution, Trafficking, and Traumatic Stress extensively documents the violence that runs like a constant thread throughout all types of prostitution, including escort, brothel, trafficking, strip club, pornography, and street prostitution. Prostitutes are always subjected to verbal sexual harassment and often have a lengthy history of trauma, including childhood sexual abuse and emotional neglect, racism, economic discrimination, rape, and other physical and sexual violence. International in scope, the book contains cutting-edge contributions from clinical experts in traumatic stress, from attorneys and advocates who work with trafficked women, adolescents, and children and also prostituted women and men. A number of chapters address the

complexity of treating the psychological symptoms resulting from prostitution and trafficking. Others address the survivor’s need for social supports, substance abuse treatment, peer support, and culturally relevant services. To stay up-to-date on this powerful subject, visit the “Traffick Jamming” blog at <http://www.prostitutionresearch.com/blog>. Prostitution, Trafficking, and Traumatic Stress examines: The connections between prostitution, incest, sexual harassment, rape, and domestic violence Clinical symptoms common among those in prostitution, including dissociation, posttraumatic stress disorder, depression, and substance abuse Peer support programs for women escaping prostitution Culturally relevant services for women escaping prostitution The connection between prostitution and trafficking, including trafficking from Mexico to the United States, and prostitution of adolescents in Cambodian brothels Online

prostitution How gay male pornography harms gay men
Accessing public assistance funds for survivors of prostitution Arguments against legalizing or decriminalizing prostitution From the editor's Preface: Prostitution is to the community what incest is to the family. Slavery, at its height, was normalized in the United States as unpleasant but inevitable, yet it is now considered to be an institution that violated human rights. Perhaps we will at some point in the future look back on prostitution/trafficking with a similar historical perspective. It is my hope that this book will assist the reader in understanding prostitution and trafficking and in how to help women and children escape it. *Beyond Narratives of Victim and Villain* Alexandra Lutnick 2013 Young people involved in the sex trade have existed throughout history. Following passage of the 2000 Trafficking Victims Protection Act (TVPA) by the U.S. Congress, 22 U.S.C. 7102(8), U.S. citizens and lawful permanent residents

who are under the age of 18 and trading sex in any capacity are now considered domestic minor victims of human trafficking. With the TVPA's passage, public awareness and services for victims of human trafficking increased. However, strategies to meet the needs of these young people are in the early stages of development. Knowledge gaps exist about the characteristics of young people who trade sex, what services these young people would like to receive, and the challenges of service provision. This study focused on three agencies that received funding to work with domestic minor victims of sex trafficking: the SAGE Project, Inc. in San Francisco, the Streetwork Project at Safe Horizon in New York, and the STOP-IT Program at Salvation Army in Chicago. This study addressed the following questions through a secondary analysis of quantitative and qualitative data: (1) What are the characteristics of young people who trade sex?; (2) What services do the young people

request and what do they receive?; and (3) What are the challenges case managers experience in their work with this population?

Der rechtliche Umgang mit Menschenhandel zum Zweck sexueller Ausbeutung in Europa

Rita Haverkamp
2018-03 Der Sammelband befasst sich mit der tatsächlichen sowie der rechtlichen Situation des Menschenhandels in zehn europäischen Staaten.

Vertreten in Landesberichten sind Belgien, Deutschland, Frankreich, Griechenland, die Niederlande, Österreich, Polen, Schweden, Spanien und Tschechien. Die Autoren geben zunächst einen Überblick über das jeweilige Land sowie das Hellfeld des dortigen Menschenhandels.

Anschließend legen sie ausführlich dar, wie Menschenhandel im jeweiligen Land strafrechtlich geahndet wird und welche Opfer- und Aufenthaltsrechtlichen Bestimmungen existieren. Im anschließenden Rechtsvergleich werden die

Regelungen einander gegenüber gestellt und "good practices" herausgearbeitet.

Preventing Child Trafficking

Jonathan Todres 2019-12-17
Providing readers with advice geared toward better understanding trafficking's root causes, this revelatory book concludes by mapping out a "public health toolkit" that can be used by anyone who is interested in preventing child trafficking, from policymakers to professionals who work with children.

Quitting the Sex Trade

Amber Horning 2021-05-14

This anthology of original research studies focuses on why and how sex workers and pimps quit the sex trade. There is an extensive literature on 'desistance' with different theories explaining why people quit crime. However, with a few notable exceptions, researchers to date have not focused on desistance among pimps and sex workers. These studies explore a spectrum of quitting the sex trade from voluntarily stopping, 'drifting,' and retiring; to intervention-based or coerced stopping due to influences and impositions by programs and/or by specialized courts. This book provides insight into the meaning of this work; how people in the sex trade view their engagement in licit/illicit spheres; and it will inform providers who interface with people from these communities regarding how to support desistance. Further this book may help those engaged in emerging topics related to the sex trade, including: (1) global

trends in sex trade decriminalization and/or human trafficking criminalization, (2) the recent emergence of human trafficking intervention courts in the USA, and (3) the development (and impact) of new laws, policies, and intervention programs designed to reduce human trafficking (globally, regionally, country level) and/or more localized efforts to support desistance among participants in the sex trade. The book will be of interest to academics, researchers and advanced students of Criminology, Sociology, Law, Policy, and Psychology. It was originally published as a special issue in the journal *Victims & Offenders*.

Understanding and Preventing Community

Violence James F. Albrecht

2022-05-30 This book examines the contemporary rise in community violence across the United States and globally from sociological and criminological perspectives. It comprehensively investigates

police response to criminal incidents, engagements with criminal suspects, use of force by law enforcement, and crime control measures implemented or recommended to initiate effective crime control measures so that the unwanted rise of violence and serious crime can again be contained. The primary audience for the book will be upper level undergraduate and graduate level students, criminal justice and law enforcement practitioners, government policy makers, community advocates, and researchers in sociology, criminology, homeland security, criminal justice, public administration, and political science.

Paths to the Prevention and Detection of Human

Trafficking Andrews, Sharon K. 2022-06-10 Much has already been published to better understand the problems associated with human trafficking such as why it occurs, where it occurs, and the horrendous tolls it takes on individuals and society. However, further study on the

latest innovative ideas, research, and real-world efforts towards the detection and prevention of human trafficking analysis as well consideration of the success or failure of the current approaches is required in order to understand the necessary future improvements and how to best achieve them. Paths to the Prevention and Detection of Human Trafficking presents innovative and potentially transformational concepts and research results that discuss current, or developing, approaches that address the identification, reporting, and prevention of human trafficking, including important identified enablers of trafficking. Covering a range of topics such as machine learning and child exploitation, this reference work is ideal for policymakers, government officials, hospital administrators, researchers, academicians, scholars, practitioners, instructors, and students.

[Human Behavior and the Social Environment, Micro Level](#)

Katherine Van Wormer
2017-03-10 Human Behavior and the Social Environment, Micro Level draws on a resilience model to explore the dynamics of human behavior across the life span. Biological, psychological, and spiritual dimensions are covered. Illustrations and vignettes from social work, psychology, literature, philosophy, and current events highlight the turning points in our lives. Critical thinking questions are provided. The result is an essential book that bridges theory and practice in accordance with the 2015 Council on Social Work Education (CSWE) standards.

Domestic Minor Sex Trafficking Susan C. Mapp
2016-06-29 Human trafficking is a thriving business around the world. Although attention had been focused initially on those who were trafficked over international borders for sexual exploitation, awareness has slowly increased of the trafficking of US citizens within its own borders, including its children. However, due to the

still-evolving research on this issue, and the subsequent reliance on mass media, there is a lack of accurate knowledge about this crime that this book seeks to address. Pulling together scholarly information from diverse fields including social work, psychology, and biology, Susan Mapp explores the particular risk factors (such as poverty, child maltreatment, and being a sexual minority) that place children at higher risk for being trafficked. The different methods of Domestic Minor Sex Trafficking (DMST)--pimp-controlled, gang-controlled, familial, and survival - are explained, including how children come to be involved in them and the mechanisms by which they occur. Assisting those being trafficked to leave the life is a difficult process, and this book explains why. It is important for everyone to act on what can be done to fight this crime; suggestions for professionals, as well as "everyday citizens," are offered, together with a list of resources.

Human Trafficking Joan Reid
2017-10-02 Human trafficking involves the violation of societal norms and often activates criminal justice responses including police, courts, juvenile justice, and child protective services. Due to the complex nature of human trafficking, some behaviours that facilitate human trafficking cannot be easily identified and assigned to conventional crime categories. As a result of this complexity, criminologists have yet to fully explore the problem of human trafficking. In recent years, however, there has been a growing interest among

criminologists in human trafficking and its intersections with the criminal justice system and overlap with conventional types of crime. This edited collection of research aims to underscore these intersections in order to further improve the description, explanation, and prevention of human trafficking. Research contained in this book provides a step forward by describing police perceptions and responses to human trafficking while also providing insight into victims with reports on victim perceptions of their treatment by the police. Most notably, this volume has moved research on human trafficking beyond descriptive frequencies to sophisticated multivariate analyses. This book was originally published as a special issue of the *Journal of Crime and Justice*.
Not in My Town Dillon Burroughs 2011-06-01 Slavery still exists--here. Tens of millions of humans live in bondage worldwide, tens of thousands in the US. As seen

recently on Fox News, Dillon Burroughs and Charles Powell bring awareness about what's happening in our nation and world. The book and DVD teach about: - Human trafficking - Sexual exploitation - Forced labor - Agricultural slavery Not in My Town answers questions and promotes discussion about the slavery system that crisscrosses Atlanta, Orlando, Las Vegas, New York, California, Texas, North Carolina, Haiti, Amsterdam, India, Cambodia, and beyond. The authors' gripping journey shocks but also motivates and provides resources to equip new generations of abolitionists from all corners of society and diverse worldviews who share the common call to stop injustice.

Emergency Medical Services, 2 Volumes Jane H. Brice 2021-11-08 The two-volume *Emergency Medical Services: Clinical Practice and Systems Oversight* delivers a thorough foundation upon which to succeed as an EMS medical director and prepare for the NAEMSP National EMS

Medical Directors Course and Practicum. Focusing on EMS in the 'real world', the book offers specific management tools that will be useful in the reader's own local EMS system and provides contextual understanding of how EMS functions within the broader emergency care system at a state, local, and national level. The two volumes offer the core knowledge trainees will need to successfully complete their training and begin their career as EMS physicians, regardless of the EMS systems in use in their areas. A companion website rounds out the book's offerings with audio and video clips of EMS best practice in action. Readers will also benefit from the inclusion of: A thorough introduction to the history of EMS An exploration of EMS airway management, including procedures and challenges, as well as how to manage ventilation, oxygenation, and breathing in patients, including cases of respiratory distress Practical discussions of medical problems, including the

challenges posed by the undifferentiated patient, altered mental status, cardiac arrest and dysrhythmias, seizures, stroke, and allergic reactions An examination of EMS systems, structure, and leadership

Domestic Minor Sex Trafficking Alexandra Lutnick 2016-01-12 The domestic sex trafficking of minors is a problem of growing concern yet little critical attention. This

book analyzes the forces behind the sex-trafficking industry in the United States and provides a much-needed reference for practitioners. It adopts a holistic approach, pursuing a nuanced exploration of these young people's experiences, their treatment, and outside efforts to combat sex trafficking. The book features interviews with service providers and experts, and incorporates recent research, thereby mapping the complex factors associated with young people's involvement in trading sex and the social connections that facilitate their behavior. It considers the experiences of both those who "choose" sex work and those who are forced into it by circumstances or third parties, and it discusses the networks of friends and close acquaintances who introduce newcomers to the trade. In addition, it takes a hard look at how local and federal responses to trafficking increase young people's vulnerability to trading sex. Urging policymakers and

practitioners to move beyond the simple framework of "rescuing" victims and "punishing" villains, this book calls for policies and programs that focus on the failure of social and cultural systems and respond better to the young people caught in this web.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States National

Research Council 2013-11-12

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking.

Despite the serious and long-term consequences for victims as well as their families, communities, and society,

efforts to prevent, identify, and respond to these crimes are largely under supported,

inefficient, uncoordinated, and unevaluated. Confronting

Commercial Sexual Exploitation and Sex

Trafficking of Minors in the United States examines

commercial sexual exploitation and sex trafficking of U.S.

citizens and lawful permanent

residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these

crimes require better collaborative approaches that

build upon the capabilities of people and entities from a

range of sectors. In addition, such efforts need to confront

demand and the individuals who commit and benefit from

these crimes. The report recommends increased

awareness and understanding, strengthening of the law's

response, strengthening of research to advance

understanding and to support the development of prevention

and intervention strategies, support for multi-sector and

interagency collaboration, and creation of a digital

information-sharing platform. A nation that is unaware of these

problems or disengaged from solutions unwittingly

contributes to the ongoing abuse of minors. If acted upon

in a coordinated and comprehensive manner, the

recommendations of

Confronting Commercial

Sexual Exploitation and Sex Trafficking of Minors in the United States can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

Social Work Practice with Survivors of Sex Trafficking and Commercial Sexual Exploitation Andrea J. Nichols 2018-04-03 As awareness and identification of sex trafficking and exploitation have grown, so has the need for improved social work responses. In this volume, expert practitioners, survivors, and researchers model the best practices for working with this population, using case examples and illustrative guides. Chapters cover the common challenges of working with trafficked and exploited people and how to overcome them, including topics like runaway youth, trauma-bonds, system-level challenges, and resource scarcity. Intended as a teaching tool for students or a supplementary manual for

organizations, this book emphasizes interventions and treatments, working with specific populations, programmatic design recommendations, preventative work, and outreach interventions. Researchers, students, and practitioners will find a comprehensive guide to the emerging field of practice with sex trafficking and exploitation survivors.

Sex Trafficking of Children in the United States Kristin M. Finklea 2012-10-07

Stolen Katariina PhD Rosenblatt 2014-09-30 Sex trafficking is currently a hot news topic, but it is not a new problem or just a problem in "other" countries. Every year, an estimated 300,000 American children are at risk of being lured into the sex trade, some as young as eight years old. It is thought that up to 90 percent of victims are never rescued. *Stolen* is the true story of one survivor who escaped--more than once. First recruited while staying with her family at a hotel in Miami Beach, Katariina Rosenblatt

was already a lonely and abused young girl who was yearning to be loved. She fell into the hands of a confident young woman who pretended friendship but slowly lured her into a child prostitution ring. For years afterward, a cycle of false friendship, threats, drugs, and violence kept her trapped. As Kat shares her harrowing experiences, readers will quickly realize the frightening truth that these terrible things could have happened to any child--a neighbor, a niece, a friend, a sister, a daughter. But beyond that, they will see that there is real hope for the victims of sex trafficking. Stolen is more than a warning. It is a celebration of survival that will inspire.

An International Perspective on Contemporary Developments in Victimology Janice Joseph

2020-06-29 This festschrift in honor of the work and legacy of Dr. Marc Groenhuijsen provides an international and

holistic overview of recent developments in victimology, taking a global scope but grounded in everyday experiences of victims. Its multidisciplinary perspective reflects a range of approaches and practices in victimology, including contributions from the fields of social work, criminology, sociology, psychology, and law. Firstly, the volume introduces new perspectives in victimology, and then analyzes different forms of victimization in countries worldwide. It gives special attention to victims' rights and participation in the criminal justice system, detailing victim-centered approaches to justice through practices such as restorative justice and restitution. Highlighting the growth and development of victimology from a specialization in criminology to an academic discipline in its own right, this book reflects the range of approaches and depth of scholarship in the field. This will be an essential resource to students of victimology,

researchers, policy makers, and victim's advocates.

Human Trafficking Noël Bridget Busch-Armendariz 2017-03-31 *Human Trafficking: Applying Research, Theory, and Case Studies* is a practical, interdisciplinary text that draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking. Throughout the book, authors Noël Bridget Busch-Armendariz, Maura Nsonwu, and Laurie Cook Heffron address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention

and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

Global Report on Trafficking in Persons 2020 United Nations 2021-04-30 *The 2020 UNODC Global Report on Trafficking in Persons* is the fifth of its kind mandated by the General Assembly through the 2010 United Nations Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators.

Adolescence, Risk and Resilience John Coleman

2007-12-17 Adolescence is often portrayed as an age of particular risk. Adolescents are not only considered a risk to themselves, but also to the rest of society. As a society, we are nervous of them, and consider them vulnerable, yet the seeds

of successful and independent adult life are laid down in adolescence, and they need all the help and support that they can get at a challenging time. *Adolescents at Risk: Against the Odds* looks in depth at some of the key risks faced by adolescents, and at some of the ways in which they can be alleviated. The book is structured according to the operational challenges the research informs.
