Cryptoassets: The Innovative Investor's Guide to Bitcoin and Beyond Chris Burniske 2017-10-20 The innovative investor's guide to an entirely new asset class—from two experts on the cutting edge With the rise of bitcoin and blockchain technology, investors can capitalize on the greatest investment opportunity since the Internet. Bitcoin was the first cryptoasset, but today there are over 800 and counting, including ether, ripple, litecoin, monero, and more. This clear, concise, and accessible guide from two industry insiders shows you how to navigate this brave new blockchain world—and how to invest in these emerging assets to secure your financial future. Cryptoassets gives you all the tools you need: * An actionable framework for investigating and valuing cryptoassets * Portfolio management techniques to maximize returns while managing risk * Historical context and tips to navigate inevitable bubbles and manias * Practical guides to exchanges, wallets, capital market vehicles, and ICOs * Predictions on how blockchain technology may disrupt current portfolios In addition to offering smart investment strategies, this authoritative resource will help you understand how these assets were

created, how they work, and how they are evolving amid the blockchain revolution. The authors define a clear and original cryptoasset taxonomy, composed of cryptocurrencies, cryptocommodities, and cryptotokens, with insights into how each subset is blending technology and markets. You'll find a variety of methods to invest in these assets, whether through global exchanges trading 24/7 or initial cryptoasset offerings (ICOs). By sequentially building on the concepts of each prior chapter, the book will provide you with a full understanding of the cryptoasset economy and the opportunities that await the innovative investor. Cryptoassets represent the future of money and markets. This book is your guide to that future.

Social Sciences Katherine D. McCann 2000-12-01 Beginning with volume 41 (1979), the University of Texas Press became the publisher of the Handbook of Latin American Studies, the most comprehensive annual bibliography in the field. Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines, the Handbook alternates from year to year between social sciences and humanities. The Handbook annotates works on Mexico, Central America, the Caribbean and the Guianas, Spanish South America, and Brazil, as well as

materials covering Latin America as a whole. Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas. The Handbook of Latin American Studies is the oldest continuing reference work in the field.

Katherine D. McCann is acting editor for this volume. The subject categories for Volume 57 are as follows: Electronic Resources for the Social Sciences Anthropology Economics Geography Government and Politics International Relations Sociology

Visual Information Systems International Conference on Visual Information Systems 1996 1997-09-29 This book is a thoroughly arranged anthology outlining the state of the art in the emerging area of visual

informationsystems. The chapters presented are a selection of thoroughly refereed and revised full papers first presented at the First International Conference on visual Information Systems held in February 1996. Next generation information systems have a high visual content, and there will be a shift in emphasis from a paradigm of predominantly alphanumeric data processing to one of visual information processing. The book provides a detailed introductory chapter, two keynotes by leading authorities, sections on design and architecture, database management and modelling, contend-based search and retrieval, feature extraction and indexing, query model and interface, and object recognition and content organization.

TIME For Kids Big Book of Where Editors of TIME For Kids Magazine 2015-12-01

TIME For Kids BIG Book of Where presents kids 8-12 years old with answers to the kinds of intriguing geography questions that appeal to their sense of curiosity. Colorful maps, spectacular photos and clear, engaging diagrams will help answer questions such as: Where is the tallest mountain?; Where did the Olympics begin?; Where is the Petrified Forest?; Where are diamonds found?; Where was the hamburger invented?; Where does spam go after you delete it?

Kids will travel the world and their own backyards to learn about different customs, sports, history, and animals in each continent. Some questions will compare how some cultures differ. For example: Where do people sleep? Some cultures sleep in beds, others on the floor, some inside, some outside. TIME For Kids goes beyond just answering the question, and engages kids with thorough answers that will satisfy the most curious of kids.

The *BIG Book of Where* is a must-have kids geography book.
