**Mercury Living Presence LPs and CDs** Kim Weston 2016-12-17 This book is primarily concerned with the classical music catalog of Mercury Living Presence recordings recorded and published by the Mercury Record Corporation. Mercury Records made some of the finest and most natural sounding audio recordings ever made, mostly of excellent and committed performances of classical music. But this is not a history of Mercury records or even of the Living Presence series of recordings. My main focus was to create a list of all

the Mercury Living Presence classical records. I am mostly interested in the stereo recordings, but there are also many earlier mono recordings of great interest, too, so I have included those also.

Specifically, what is included is information on the SR 90000 series of stereo recordings and the MG 50000 series of mono recordings, but there is also a listing of the Wing classical reissue series. \*\*\*\*\* Decades ago, when I began collecting Mercury records, and years later when I started collecting the CDs, I was looking for a complete list of all the Mercury Living Presence records and later the CDs. Though I found some information that was helpful, to get what I wanted, I had to make the list myself. I started with lists of records on the record sleeves of the albums, got some information from The Absolute Sound! magazine, and in the internet age, found useful information on several internet sites, but mostly to get the list I wanted, I had to dig up the information and build it myself. Having

completed the list, it occurred to me that other collectors might find it helpful, too. So I put together a group of databases and spreadsheets in Microsoft Excel and Microsoft Works database format files and issued the databases I had created on a CD-rom disc in early 2013. By that time I had all the original series of CDs mastered by Wilma Cozart Fine, and many of the records that had been reissued on CD, and virtually all of the stereo records not issued on CD, plus most of the mono records in which I had a strong interest. Now it is available as a book. Among other things it includes the following lists: Complete Mercury Living Presence CDs, including every CD, with its track information, identifying Composer, title, soloist, conductor, orchestra, CD #, LP where originally published, and recording date. Complete Mercury Living Presence LPs including every LP with its track information identifying Composer, title, soloist, conductor, orchestra, LP #, CD on which it was reissued if any,

and recording date. Different versions of the files are arranged by: Composer and Title, Recording Date, Record number, and CD number. There are also a listings of LPs and LP tracks that have not been reissued in the Mercury Living Presence CD series. Included are listings of all original Mercury Living Presence records in the SR 90000 and MG 50000 series, all CDs originally mastered by Wilma Cozart Fine, all SACDs, and the more recent reissues and new issues in the large 50+ CD box sets and the 10-CD box sets of Marcel Dupré and Janos Starker. There are also a few chapters of background information, little known facts, and other topics of interest. Hopefully readers will find it interesting and useful.

Note: 50% of the proceeds from this book will be donated to a mental health organization focused on helping anxiety, depression, and suicide.\* Hey YOU! Yes... you... the (really cool) person reading the back summary of this book. How are

you? Having a good day? Since you are reading the back cover of this book I'm guessing that you're curious what the heck it's about. Right? Well, let me tell you, this ain't no children's book. Full of love, sex, anxiety, and depression this book will chew you up and spit you back out before chapter 4. The story begins with me, sitting in a cafe with my girlfriend of three months. Overcome by love, I (stupidly) decide to proclaim my love for her in the middle of a coffee shop. "I love you. And I know that one day I'm supposed to marry you." Man... do I regret that moment -/ I wish I could tell you that the awkwardness stops there but that would be a bold faced lie. If I was in marketing (I'm not) I would say something like... "From navigating online dating apps and relationships, to self-centered friends, and emotionally abusive alcoholics, James (that's me!) constantly feels like he's at the bottom of the social food chain. His only comfort is his love for music, which displays itself in the form of original lyrics throughout the

book. One crazy day, James runs into Nikki, a bold, spit-fire, do-things-her-own-way type of person who changes his world-view forever." Well... If you made it down here I'd say this book is for you. If you didn't, oh well. #YOURLOSSBUDDY.

## **Reference Guide to the International Space Station**

Gary Kitmacher 2010-11-01 The International Space Station (ISS) is a great international, technological, and political achievement. It is the latest step in humankind's quest to explore and live in space. The research done on the ISS may advance our knowledge in various areas of science, enable us to improve life on this planet, and give us the experience and increased understanding that can eventually equip us to journey to other worlds. As a result of the Station's complexity, few understand its configuration, its design and component systems, or the complex operations required in its construction and operation. This book provides high-level insight into the ISS. The ISS is in orbit today, operating with a crew of three. Its assembly will continue through 2010. As the ISS grows, its capabilities will increase, thus requiring a larger crew. Currently, 16 countries are involved in this venture. The sophisticated procedures

required in the Station's construction and operation are presented in Amazing 3D Graphics generated by NASA 104 pages of spectacularly detailed color graphics the Space Station as you've never seen it before!

Pocket Change for Life Akila Mukarramma 2005-06-01

Pocket Change is a book of wisdom accumulated through life's challenges to make you think. The choices we make are not only crucial to our lives, but to others as well. For this reason alone, we should be considerate of each other. We many times question our existence because of the strenuous task we encounter. One thing to remember is every problem has a solution. We must always search ourselves for error, that we may keep an open mind to the truth. This is the responsibility of life. As one needs pocket change for a parking meter or a telephone call, wisdom is needed as well as knowledge.
