**Paintless Dent Removal in Action** Lawrence Yawa 2022-02-21 The purpose of this book is to equip Higher Education and Training Institutions, Paintless Dent Removal students, green economy researchers, industry leaders, educators, assessors, moderators, the insurance industry, and those who want to start their own PDR businesses with more knowledge about this emerging and exciting field. For those who do not know, PDR is recognized as the best way of removing dents on cars without involving spray-painting in the repair process, with the aim of reducing emissions in order to save our planet (Earth), as we all know that it is our responsibility to contribute by all means in reducing of emissions to Zero percent in order to save our planet, hence the introduction of Paintless Dent Removal to deal with this dilemma. Paintless Dent Removal is a method of removing dents on vehicles by massaging the metal from the inside out without affecting or cracking the paint and there's no spray painting involved in the repair process. This technique or method was developed with the aim of reducing emissions in order to save our planet (Earth), as we all know that it is our responsibility to contribute by all means in reducing emissions to Zero percent in order to save our planet. With the Economic downturn, Climate Change, Unemployment, Poverty, Inequality, etc, I hereby want to introduce the service/career called "Paintless Dent Removal Science/Engineering" with the aim of seeking support by working in collaboration or partnership with interested " Organizations/Institutions of Learning" (on Green Skills Youth Development, worldwide, in this regard ) and also promoting this powerful program for Research, Education, Engineering, Entrepreneurship, Training, and Labour purposes which I think it will save all "Nations in the Globe" because it does not emit hazardous fumes or smoke that endangers people's health. It is kinder to our environment and cost - effective than most of methods in Auto-body repairs on vehicles of all types which I believe we can create more decent jobs for the Youth in the Automotive Industry irrespective of gender and race worldwide.
