**The Aaronsohn Saga** Shmuel Katz 2007 A celebrated botanist, who had won world fame as the discoverer of 'wild wheat,' Aaron Aaronsohn (1876-1919) created the first Jewish Agricultural Experiment Station in Palestine then under Turkish rule in 1910. His venture was supported and funded from the U.S. by a group which included Julius Rosenwald, Justices Louis D. Brandeis and Felix Frankfurter (both later on the U.S. Supreme Court), Judah L. Magnes (later President of the Hebrew University), and Henrietta Szold, the founder of Hadassah. In World War I, reacting against the oppressive Turkish regime, Aaronsohn founded a Jewish spy organization, Nili, to help the British in the forthcoming battle for Palestine. Here is told the story of Aaronsohn, who is revealed as a master of strategy, and his sister Sarah, whose self-sacrificing devotion to the cause shows her to be a great historic personality in her own right. Historian Shmuel Katz here rectifies the absence of a comprehensive biography of Aaronsohn and the Nili spy ring. Meticulously researched British War Office intelligence documents and the letters and field reports of Nili's central figures illustrate the crucial contribution made by Nili to the British conquest of Palestine. Powerfully written, with deep sensitivity to the emotional lives of the people portrayed, The Aaronsohn Saga is both solid history and a marvelous read.

**Selling Social Media** Daniel Faltsek 2018-05-17 Facebook, Twitter, Snapchat, YouTube, LinkedIn, and dozens of other services have been described as the vanguard of creative destruction across the media industries-disruptors of established business, heroes of a new economic narrative that supposes that the attention of individual users can be measured, managed, manipulated, backing methods that securitized, patented, and litigated attention in ways impossible before. Selling Social Media catalogues the key terms and discourses of the rise of social media firms with a particular emphasis on monetization, securitization, disruption, and litigation. Tensions between ideas and terms are critical, as the ways that different aspects of social media business are described change depending on the audience, scale, and maturity of the firm. These divergent discourses are bound together into a single story of social media, an industry that challenges the theories and descriptions of media that have come

before. Through a reading of social media business this book offers a chance to revisit media theory in the context of a new social media companies and products that depend on a different understanding of media audiences, media industries, and public agency.
