Robert Silverberg 2014-03-27  
In the far future, Earth is about to be swallowed by a black hole in this sweeping SF epic from one of the masters of the genre. In a time so far from our own that we cannot comprehend it, humanity has spread amongst the stars and changed in more ways than we can count. But they have never forgotten their birthplace - Earth. But now Earth stands on the brink of catastrophe, at risk of being swallowed by a black hole. One man, Hanosz Prime, ruler of his world, is determined to visit Earth before it is destroyed. His abdication from his throne and his wanderlust are to prove the beginning of a much longer journey - one that will see him fall in love, meet the Oracles of Earth and perhaps, if he is very lucky, provide a means to save the cradle of humanity. Originally started by Robert Silverberg more than 20 years ago but never completed, Hanosz's story is taken up by Alvaro Zinos-Amaro. Silverberg hand-picked Zinos-Amaro to complete the book, and

provided notes and guidance. The result is a remarkable collaboration between one of the masters of SF and one of the most exciting new voices in the genre.

Learning-Driven Schools Barry Beers 2006-06-15 Many teachers are trained to approach their work with a set of teaching strategies and lessons that changes little over time. Because they are focused on how they teach, rather than on how their students learn, they use the same techniques day after day, making no adjustments for students' different learning needs. In

Learning-Driven Schools: A Practical Guide for Teachers and Principals, Barry Beers shows how teachers can plan, teach, and assess for student learning--and how principals can support teachers in their efforts. The book includes \* An overview of the research on knowledge retention; \* Real-life samples of lesson plans that address state and local standards; \* Strategies on accurately assessing student learning; \* Advice for teachers on addressing the needs of struggling, intermediate, and advanced students at the same time; and \* Advice for administrators on conducting effective classroom observations. A rallying cry and how-to guide rolled into one, this book is an invaluable resource for anyone passionate about learning. Having served as a veteran teacher and principal himself, Barry Beers brings his own experience and understanding to bear on the essential task of ensuring that student learning remains the clear focus of our schools.

'Blew my mind... so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book... I loved every moment of it... immersive, heart-wrenching, I feel emotional writing this review.' Goodreads reviewer, 5 stars  
Wanted: Company Daughters. Virtuous young ladies to become the brides of industrious settlers in a foreign land. The Company will pay the

cost of the lady's dowry and travel. Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. ### **Law: A Very Short**

**Introduction** Raymond Wacks 2008-03-27 Law underlies our society - it protects our rights, imposes duties on each of us, and establishes a framework for the conduct of almost every social, political, and economic activity. The punishment of crime, compensation of the injured, and the enforcement of contracts are merely some of the tasks of a modern legal system. It also strives to achieve justice, promote freedom, and protect our security. The result is a system that, while it touches all of our daily lives, is properly understood by only a few, with its impenetrable jargon, obsolete procedures, and interminable stream of

Byzantine statutes and judgments of the courts. This clear, jargon-free Very Short Introduction aims to redress that balance, as it introduces the essentials of law and legal systems in a lively, accessible, and stimulating manner. Explaining the main concepts, terms, and processes of the legal system, it focuses on the Western tradition (the common law and the civil law), but also includes discussions of other legal systems, such as customary law and Islamic law. And it looks to the future too, as globalization and rapid advances in technology place increasing strain on our current legal system. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Voices of Hope Carole B. Shmurak 1998 Fueled by

media reports of gender bias in the schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.
